

CAREER OBJECTIVE

Final-year Engineering student with a Diploma in AI & ML seeking an entry-level AI/ML or Software Development role where I can apply hands-on experience gained through academic and personal projects, leveraging skills in Python, Machine Learning, Deep Learning, SQL, Data Analysis, and Web Development to deliver innovative technology solutions.

EDUCATION

SIES Graduate School of Technology BE - Information Technology / Engineering - Full Time Percentage: CGPA: 9.5/10	Sep 2025- Present
Government Polytechnic Mumbai diploma Director Of Technical Education Percentage: 90.07%	Sep 2022 - june 2025
K,Narkhede Vidyalaya Bhusawal 10th Maharashtra State Board of Secondary and Higher Secondary Education Percentage: 90.40%	Mar 2021 - Mar 2022

KEY SKILLS

Machine Learning Python Deep Learning Data Analysis Web Development

PROJECTS

1 **GesturaX: Gesture-Based Computer Control System**

Tech Stack: Python, OpenCV, MediaPipe, PyAutoGUI, PyQt5

- Developed a real-time gesture-based computer control system using Python, OpenCV, and MediaPipe to enable hands-free interaction through webcam-based hand tracking.
- Implemented gesture recognition for cursor movement, mouse clicks, scrolling, volume, brightness, and application switching using custom hand landmark detection algorithms.
- Designed a PyQt5 desktop interface with mini-player mode, theme switching, and responsive real-time gesture visualization to improve user experience.
- Achieved approximately **95% gesture detection accuracy** with response time below **50 ms** under normal lighting conditions.

2 **PBNOF: Persona-Based Noise & Obfuscation Framework**

Tech Stack: JavaScript, Chrome Extension APIs, HTML, CSS, GitHub

- Developed a Chrome browser extension that enhances online privacy by generating persona-based synthetic browsing activity to reduce behavioral tracking and user profiling.
- Implemented idle detection, automated tab management, and Chrome Storage APIs to trigger privacy protection with minimal impact on normal browsing.
- Designed a modular architecture featuring background service workers, persona management, behavioral obfuscation, and browser automation for efficient client-side execution.
- Built a lightweight extension with local-only data processing, improving user privacy while maintaining low CPU and memory usage.

ASSESSMENTS / CERTIFICATIONS	
Elements Of Data Science AWS Training	Nov 2022
Python Infosys Springboard	Nov 2022
Data Science Board infinity	Nov 2023
C programming Spoken tutorial IIT Bombay	May 2025
Deep Learning for Developers Infosys Springboard	Jul 2026

PERSONAL DETAILS

Gender: Male

Known Languages: English, Marathi, Hindi

Phone Number:8459466129

Date of Birth: 21-06-2007

Current Address: Navi Mumbai
